CALL FOR DEMOS

8TH INTERNATIONAL WORKSHOP ON BIOMETRICS AND FORENSICS
APRIL 29-30, 2020 | PORTO, PORTUGAL

The **IWBF 2020** organisers invite academia, industry researchers and practitioners to showcase their work in biometrics and forensics through demonstrations. We are searching for **interactive displays of innovative methods, systems and applications** within the workshop's topics of interest.

Important Dates

Submission Deadline: February 15, 2020

Decision Notification: February 29, 2020

Conference: 29-30 April 2020

Guidelines:

Demonstrations do not need to be accompanied by a paper submission to IWBF 2020, although this is encouraged. Decisions on demonstration proposals are independent from the decision on any submitted paper. Demonstrations linked to already published articles and/or performed in previous events are also acceptable.

The organising committee will provide one table, one A0-sized poster board, one power outlet, and wi-fi connectivity to each demonstration. Authors are expected to bring any other needed equipment, and should mention any special requirements in the submitted proposal document.

Please note that demonstrations should focus on research aspects (methods, systems or applications). Demonstrations focused on business visibility will be rejected. Institutions looking for marketing or sales opportunities should contact the sponsorship chairs.

Submission:

Interested parties should submit a short proposal document (maximum 2 pages) including:

- (1) a short abstract describing the demonstration: the methods/systems, their context, goals, and results;
- (2) reference to submitted manuscripts or publications associated with the demonstration (if any);
- (3) a list of needed space/facilities/equipment not brought by the authors;
- (4) pictures or schematics of the demonstration setup (optional);
- (5) a list of previous conferences/events where the demonstration was performed, and any changes made since then.

Authors should follow carefully all instructions and guidelines and submit a demo-proposal document in the IEEE conference style and use the respective template. Proposals must be submitted in PDF format using the Microsoft CMT submission system.

Any questions about demo proposal submissions or the demo session should be addressed by email to the Demo Chair João Ribeiro Pinto (joao.t.pinto@inesctec.pt). Further details can be found on the conference website: vcmi.inesctec.pt/iwbf2020

GENERAL CHAIRS

Jaime S. Cardoso

FEUP & INESC TEC, Porto, Portugal

Raghavendra Ramachandra

NTNU, Norway

HONORARY CHAIRS

Mark Nixon

University of Southampton, UK

Arun Ross

Michigan State University, USA

PROGRAM CHAIRS

Lena Klasén

Swedish Police Authority, Sweden

Andreas Uhl

University of Salzburg, Salzburg, Austria

Hugo Proença

University of Beira Interior, Portugal

ADVISORY CHAIRS

Massimo Tistarelli

University of Sassari, Italy

Christoph Busch

NTNU, Norway & Hochschule Darmstadt & Fraunhofer IGD, Germany

Raymond Veldhuis

University of Twente, The Netherlands

Paulo Lobato Correia

Instituto Superior Técnico, Portugal

Chang-Tsun Li

University of Warwick, UK

PUBLICATION CHAIRS

Fernando Alonso-Fernandez

Halmstad University, Sweden

Marta Gomez-Barrero

Hochschule Darmstadt, Germany

Naser Damer

Fraunhofer IGD, Germany

LOCAL ORGANISATION CHAIRS

Ana Filipa Sequeira
